

THE OHIO RIVER.

Anxiety as to What This Very Uncertain Stream Will Do.

ANOTHER RISE IS COMING SURE.

But Its Extent Cannot Now Be Closely Estimated—Twenty-five Feet Is Predicted at Pittsburgh, Which Means About Thirty-five Feet at Wheeling. The Rain Appears to Be General Above and Below Wheeling.

PITTSBURGH, Pa., Jan. 10.—Forecaster Stewart to-night predicts another flood shortly, which will reach the height of Tuesday's rise, or at least 25 feet. The weather bureau reports from Monongahela river points show that at Fairmont the river has risen six feet since morning, and is still going up. At Lock No. 4, 17 feet is recorded and rising at the rate of three inches an hour. Reports along the Allegheny river do not show any material rise as yet, but the observer says the warm rain of the past twenty-four hours, which has been general, is bound to melt the large quantities of snow that withstood the last thaw and swell the Allegheny to flood height.

The river continued to fall steadily most of the day, yesterday, but the accompaniment of steady rain that had set in Wednesday night at 10 o'clock was the cause of a general feeling of uneasiness all over the city. The similarity of the conditions then as compared to those just preceding the great flood of 1884 was striking and excited general comment. Then as now the flood was preceded by a big river which commenced to fall and recede to twenty feet before the second rise caused by steady rains overtopped by far the first flood. However, as yet, there is nothing on which to base the fears felt yesterday that the Ohio would go beyond its recent maximum height. The general rains were expected to cause the river here to become stationary at an early hour this morning and it was thought that it would commence to climb up the marks again soon after.

The river fell rapidly during the morning hours, but the rate became considerably lower in the afternoon, getting down to about three inches per hour at 7 o'clock. At 8 p. m. the marks showed 27 feet 8 inches, and three hours later 27 feet 3 inches, a fall of but five inches, less than two inches per hour. Throughout the day the rain made the prospects look gloomy, and the wharfbote telephone was kept ringing almost constantly. Captain Crocker assured all who inquired that so far as he could ascertain it was raining at nearly all points, that the river would probably come to a standstill, that it would again climb up the banks, but that no alarm need be felt unless the rain is constant for two, three or four days. In this event there would undoubtedly be cause for alarm for those who live or do business in the lower portions of the city. The morning reports from headwater points were as follows:

Parker—6 feet 7 inches, falling but raining.

Greensboro—12 feet 9 inches, falling and raining.

Oil City—4 feet 10 inches, falling slowly and raining.

Pittsburgh—14 feet 6 inches, falling and raining.

Morgantown—11 feet, falling and raining.

Brownsville—13 feet 11 inches, falling and cloudy.

Rice's Landing—12 feet 8 inches, falling and cloudy.

During the morning street car lines, railroads and other lines of business that had been affected by the high water, resumed, and the merchants who had removed stocks from cellars put them back again.

At 2 a. m. the marks showed 26 feet 10 inches, a fall of five inches since 11 p. m., or less than two inches an hour. The stream was expected to become stationary early to-day.

Heavy Rain Below.

CINCINNATI, O., Jan. 10.—Rain is reported throughout the Ohio Valley to-day. In West Virginia it was preceded by heavy snow. Already the Little Kanawha, the Kanawha and the Big Sandy are rising rapidly. This will check the fall in the Ohio above, and will increase the height here, though it is not yet apparent that a dangerous rise will come. That depends on the continuance of the present rain.

Headwater Reports.

Warren—River 3 feet 2 inches and stationary. Weather, light rain and mild.

Oil City—River 4 feet 4 inches and falling slowly. Weather mild and raining heavily.

Morgantown—River 11 feet and falling slowly. Weather cold and raining.

Greensboro—River 14 feet and rising. Weather, rainfall .85 and cool.

Stevensville—River 24 feet 8 inches and falling. Weather cool and raining.

Pittsburgh—River 14 feet 7 inches and falling. Raining.

THE W. & E. G. ROAD.

A Good Showing Made for the Past Year. The Directors.

At a meeting of the stockholders of the Wheeling & Elm Grove Railroad Company, held yesterday, Messrs. A. Reymann, August Rolf, H. Bieborson, H. B. Grimm, J. D. DuBois, F. Hapay and B. W. Jeffers were elected to constitute the board of directors for the year 1895.

The annual reports were all exceedingly satisfactory. The road and property are in good condition, and important betterments have been made in the past year. The financial condition of the company is good, though the profits were less than a thousand dollars out of over \$15,000 receipts. This was largely owing to the heavy expense for improvements. The business showed a steady and satisfactory increase, but the revenues did not increase in proportion, owing to the reduction in charges, which averaged about 20 per cent. The prospects for the future were reported very favorable.

Directors Elected.

Yesterday afternoon the stockholders of the Bank of Wheeling met and elected the following board of directors: Joseph Seybold, Joseph F. Paul, A. Reymann, H. Bieborson, James Cummings, G. Lamb, Allen Brock. The board has not yet organized.

Officers Elected.

The German American Fire Insurance Company held its meeting of directors last evening at their office in the Roemer block, and elected the following officers: Dr. W. R. Taylor, of Wheeling, president; T. Pickenpaugh, of Morgantown, first vice president; S. H. Nixum, of Fairmont, second vice

president; John B. Garden, of Wheeling, treasurer; F. W. Reynolds, of Wheeling, secretary.

BUILDING AND LOAN MEN

Meet Here to Form a State Association and Formulate Needed Legislation.

Yesterday there was held a meeting of representatives of the various local and state building and loan associations at the office of the German-American Building and Loan Association, Roemer block, to consider the best steps to be taken to procure beneficial legislation in the interest of building and loan association members. By unanimous consent Mr. Alexander, of Parkersburg, was called to the chair, and Mr. Charles O. Roemer, of Wheeling, was made secretary. After a very interesting discussion the following committee was appointed to frame a bill to be submitted to the legislature: Charles O. Roemer, chairman, Joseph Lawson, George J. Mathison, A. J. McNash and W. J. W. Cowden.

It was also recommended that the secretary endeavor to promulgate the formation of a state building and loan association league for the purpose of looking after the welfare of their interests. J. T. Rittenhouse, of Parkersburg, and Messrs. H. P. McGregor, Dr. Taylor, S. Alexander, John R. Garden, Attorney General Riley, Charles Menkemeller, J. A. Dunning and others were in attendance.

PETER MAHER.

A Fine Attraction Opened at the Grand Last Night to a Good House.

An unusually large crowd witnessed the opening performance of the Peter Maher Athletic and Specialty Company at the Grand last night. From beginning to end the specialties are all good, and in fact away above the average.

"The Keegans" do a very funny act, as also do Conley and Madden and Campbell and Beard. "Low C. Mettler," the mimic and imitator, is very clever in his line of business. Some of his imitations are great. The Doro Brothers do a wonderful gymnastic act.

The show closed with the funniest after piece seen here for many a day, entitled "McCracken's Reception," introducing the crack company and ending with a scientific sparring exhibition by Peter Maher, the "coming champion of the world," and Billy Hennessy, of Boston, which was very interesting.

The show is a good one and deserves big business, which it will no doubt do. The same bill will be presented the remainder of the engagement, which is to-night and the usual Saturday matinee and night.

"Jane."

A great company appears at the Opera House next Tuesday and Wednesday evenings and Wednesday matinee, presenting that farcical success "Jane." The story tells of the adventure of a young bachelor of prodigious ways, who secures money from the trustee of an estate by representing himself to be married. When the trustee suddenly appears on the scene, the young man, forced to provide a wife for the situation, makes a business arrangement with his housemaid, Jane, and from this plot of the morning a household becomes the wife of her master at noon, and has to accept of two children, their offspring, at evening. The household and neighbors are all turned into base liars and deceivers, all for sordid gain and vain glory, all in a morning, noon and night. As a farce comedy it creates roars of laughter that are not far between.

Old Times.

The Martinetti family is one of the oldest theatrical families in the world. For more than 150 years this family name has been before the public. Beginning in France during the time of the first Napoleon down to the present the name of Martinetti has been a distinguished one. Coming to this country with the Ravens in the early forties until to-day they have held their places through father and son, generation after generation, as the leaders and originators of all the pantomime novelties of the times. Edwin To-To and George Martinetti, the acrobats, grotesque dancers and pantomimists are lineal descendants of the original Martinetti family. They will appear with the A. G. Field Minstrels and Pantomime of Aladdin at Opera House, Monday evening, January 14.

Charles T. Ellis.

It is seldom that the public gets such a good attraction as Charles T. Ellis at popular prices, but Manager Feinlor has determined that he will elevate the standard of the house, and Ellis is the first of what he calls his banner attractions that will be seen. Others equally as strong will follow in rapid succession. "Casper, the Yodler," will be presented in first class style as regards scenery and company.

Lightning Hot Drops. What is It?

Although this preparation has achieved a world wide fame as a standard remedy for pains, some people are yet unfamiliar with it and ask:

"What is Lightning Hot Drops?"

Our answer is: "Lightning Hot Drops is a most wonderful combination of pure drugs and herbal extracts, especially designed to kill pain, to allay inflammation and to soothe and heal all flesh wounds, of whatever nature.

"Lightning Hot Drops is the greatest pain panacea known to medical science; it is for internal and external use, and is equally good for man, beast or fowl.

"Lightning Hot Drops is a carminative of pronounced power, and is an acknowledged specific in all stomach and bowel disorders, exerting a corrective influence never equaled by any so-called 'similar' preparation.

"Lightning Hot Drops is a universal panacea of rare merit, standing alone and unapproachable in true medicinal qualities."

That every claim for Lightning Hot Drops is sustained by strict truth is attested by the remarkable popularity of the remedy at home. The druggist everywhere, without exception, report remarkable and constantly increasing sales of the preparation, and in nearly every case add that it is a pleasure to sell such a remedy because of the universal satisfaction it gives.

Lightning Hot Drops is a standard household remedy, well worthy of a place in every home the whole year around. Lightning Hot Drops is sold everywhere at 25 and 50 cents per bottle, 50c two and one-half times as large as 25c, and is made only by the Herb Medicine Company, Springfield, Ohio.

Use it in Time.

Catarrh starts in the nasal passages, affecting eyes, ears and throat, and is in fact, the great enemy of the mucous membrane. Neglected colds in the head almost invariably precede catarrh, causing an excessive flow of mucus, and if the mucous discharge becomes interrupted the disagreeable results of catarrh will follow, such as bad breath, severe pain across forehead and about the eyes, a roaring and buzzing sound in the ears and oftentimes a very offensive discharge. Ely's Cream Balm is the acknowledged cure for these troubles.

A SENSATIONAL TURN

In the Gold Brick Swindle—The Notorious "Detective," John T. Norris, in Jail.

The gold brick swindle case at Richmond, Va., which has a local bearing on account of the fact that the same parties got several thousand dollars from Mr. Robert Bonar, of this county, by the same game, took a sensational turn Wednesday. The Richmond Dispatch says:

"John T. Norris, a detective from Springfield, Ohio, who came to Richmond yesterday from New York, ostensibly to assist the Virginia authorities in bringing the gold brick swindlers to justice, now lies in a cell at the Second police station.

He is only charged with being a suspicious character, but his apprehension was brought about by Commonwealth's Attorney H. M. Smith, jr., whom the western officer attempted to bribe with \$12,000 and an interest in certain contracts if he would consent to bail Thomas H. Parker alias G. W. Carden alias Frank S. Smith, who is in the city jail on the charge of defrauding Alfred W. Withers, of Gloucester, out of \$5,000 here last Friday.

"Norris arrived here yesterday morning from the metropolis, though he had been stopping in Jersey City for several days, under the name of Starke, and it was in the latter place that the matter of getting Parker out of jail was concocted."

The Dispatch gives a list of persons who have been swindled by the gang, in which Mr. Bonar's name is not included:

John Fisher, Ottawa, Ill., \$7,000; Clarke Adams, Covington, O., \$5,000; A. A. Banton, Covington, Ky., \$1,800; John Appleman, Bloomsburg, Pa., \$3,500; H. O. Dwell, Sandusky, O., \$1,000; A. L. Fuller, Williamsport, Pa., \$1,100; John Groll, \$8,900; Patrick Martin, Trenton, N. J., \$5,000; Joseph Shannon, Beaver, Pa., \$9,000; Martin Ritchie, Littlefield, Ill., \$5,000; H. Johnson, Marion, Ind., \$7,000; Charles Wright, Ottawa, Ill., \$5,000; F. Glynn, Ottawa, Ill., \$5,000; J. B. Crowell, Chambersburg, Pa., \$5,500; Patrick O'Connor, \$4,500.

Detective Norris said that the true name of Parker alias Carden is Frank Lockwood Smith, and that he is from Dickson, Ill. His mother was Ellen Smith, who lived on Galeno street. It will be remembered, says the Dispatch, that Parker burst into tears while talking to a Dispatch reporter about his dead mother. Some years ago she broke her leg, and went to New York to reside with her son, Frank L. Smith, who was then known as Frank Lockwood. They lived about the intersection of One Hundredth street and Eighth avenue. Smith married a young woman from Detroit, Mich., named Frankie McCordie, about five or six years ago. She had one child, a daughter, who now goes by the name of Louisa Smith. About three years ago, Smith and his wife separated, and the prisoner ran off with a woman named Mattie Hopkins, legal wife of Patrick Henry Davis, alias Red Austin, another of the gold brick gang. Norris said that Parker, alias Smith, is a nephew of E. E. Shaw, editor of the District Telegraph, Dickson, Ill. His mother was a sister of Hon. Thomas F. Eustis, who was eighteen years ago a member of Congress. The prisoner lived in Nashville, Tenn., about ten years ago, and his record there was a bad one.

"All of a Twist" Club Entertained.

A dance was given last evening at the home of Miss Maggie Leonard, at 39 Twentieth street. She entertained the "All of a Twist" club. Those present were Misses Maggie Leonard, Marguerite Jones, Lydia Leonard, Janie Leonard, Mollie Lynch, Minnie Altman, Lucy Barber, Mamie Mack, Nora Leonard and Messrs. John Leonard, Edward Lynch, James Leonard, Harry Bennett, Harry Gilmore, Michael May and William Carroll. John Lynch sang several very pleasing songs. Refreshments were served at 12 o'clock. Peddicord's orchestra was present and furnished music. The club will give its next hop next Thursday evening at Mr. John Leonard's, 2632 Market street, and all the lady and gentlemen friends of the members are invited to be present.

MARTIN'S FERRY.

Haps and Mishaps in the Thriving City Across the River.

Last night Judge J. S. Cochran and wife were surprised by a party of friends at their residence on Fourth street after the prayer meeting in the Presbyterian church. The party took refreshments and a beautiful Dresden clock. The clock was presented to the Judge and Mrs. Cochran as a slight token of appreciation and esteem. The surprisers remained until a late hour and spent a most delightful evening.

Rev. Dr. J. W. Robins and Rev. A. E. Brownlee, of the M. E. and U. P. churches, officiated at the funeral of Thomas Craig yesterday. The Knights of Pythias and Red Men attended in a body, and the pall bearers were W. H. Hellenbach, Henry Waterhouse, Thomas Paugh, Jacob Delisle, Charles Somers and James Miskell.

The stock of shoes of William Jones who made an assignment are being appraised by E. C. Boyd, W. N. Holliday and A. D. Newland. The liabilities are about \$1,000 and the assets something like \$6,000.

Traffic was resumed on the Wheeling & Lake Erie railroad yesterday, also on the Martin's Ferry and Bellaire Electric Railway.

The 9:02 train on the Cleveland & Pittsburgh was late last night, the first for a long time.

The Fidelity Savings and Loan Association has declared a dividend of eight per cent.

Communion will be held in the Presbyterian church on Sunday.

John Dowdall left yesterday for New York to take a position.

E. J. A. and L. J. C. Drennon were at Mountville yesterday.

\$100 Reward, \$100.

The reader of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly on the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Address, F. J. CHESKY & Co., Toledo, O.

Sold by druggists, 75c.

CHAS. R. GORTZ and W. W. Irwin, druggists, will tell you that Johnson's Magnetic Oil always gives satisfaction and is the cheapest. \$1.00 size 50 cents; 50 cent size 25 cents.

Physicians recommend Smith Brewing Co.'s also as a wholesome beverage.

CROP REPORT.

United States Government Estimates of the Cereal Production.

WASHINGTON, D. C., Jan. 10.—The estimate of the area, product and value by states and territories of the cereal crops together with those of hay, potatoes and tobacco have been completed by the statistician of the agricultural department and are presented as follows: The crop of corn in 1894 in ratio of yield is one of the lowest on record. In the past thirteen years the yield per acre of but one year, namely 1881, was lower; the yield for that year having been 18.6 against 19.4 for the year 1894. Severe drought and dry winds in a few of the principal corn producing states reduced the area harvested for its grain value to 62,582,000 from the 76,000,000 acres planted. The products garnered are 1,212,770,000 bushels, having an estimated farm value of \$534,719,000.

The wheat crop is above an average one in yield per acre. The entire product of the country is 460,467,416 bushels, which is below the average for the five years, 1890 to 1894, inclusive. The farm value of the crop is \$225,902,025. The area, according to revised estimates, is 34,882,436 acres. In the revision of acres the principal changes have been made in the spring wheat states. The rate of yield is 13.2 bushels per acre. The average value per bushel, 49.1 cents.

The estimates for oats are: Area, 27,023,553 acres, product 602,086,928 bushels, value \$214,816,920; yield per acre 24.5 bushels. Rye, area 1,944,780 acres, product 26,727,615 bushels, value \$13,394,475. Barley, area 3,170,602 acres, product 61,400,465 bushels, value \$27,134,127. Buckwheat, 989,232 acres, product 12,668,200 bushels, value \$7,010,253. Potatoes, area 7,737,973 acres, product 170,787,338 bushels, value \$91,526,787. Tobacco, area 523,103 acres, product 406,678,355 pounds, value \$27,700,739.

Receiver Appointed.

ST. LOUIS, Jan. 10.—Joseph Sampson, president of the Fidelity Loan and Trust Company, was interviewed regarding the financial troubles of the company. He said it could hardly be looked at as a failure in a way that a failure is usually regarded. The embarrassment is only a temporary one, brought about by inability of Nebraska farmers, on account of crop failures, to pay interest on their loans. This amounted for January to \$30,000 and from this amount we are to pay interest on our coupons for \$30,000.

Said Mr. Sampson: "They failed to respond and so did we, but there can be no genuine failure, for every loan made is secured by gilt-edged security. It is probable that I will take the receivership, as stockholders have been urging me to accept the appointment."

Cold in Scotland.

EDINBURGH, Jan. 10.—The cold weather now prevailing in Scotland in the most severe experienced for many years; 32 degrees of frost have been registered. Loch Lomond is frozen over. In several parts of the country railroad traffic has been stopped by the snow. Some of the drifts are 20 feet high. Dense, black fog prevails over this Clyde and steamers are unable to proceed.

Chinese Worried, as Usual.

LONDON, Jan. 10.—A dispatch from Shanghai says that severe fighting has taken place near Jehol, Mongolia, 120 miles northeast of Peking. Hundreds of wounded Chinese are reported to be arriving at Tien Tsin daily.

Chapman's Bronchial

Blood Poison

After Approach of Death, New Life by Taking Hood's.

Mr. H. M. E. Greenholts, Baltimore, Md.

"For four years I was in intense suffering with an abscess on my thigh. It discharged freely and several times.

Pieces of Bone Came Out.

Last February I had to take my bed for four weeks, and then it was I began to take Hood's Sarsaparilla. I soon got on my feet, but was very weak and went to the Maryland University hospital, where they said my trouble was chronic blood poisoning and gave me little hope. I returned home and continued taking Hood's. I have used six bottles and the abscess has entirely disappeared, and I have been in

Fine Health Ever Since.

I know if it had not been for Hood's Sarsaparilla I should be in my grave. I have gained in weight from 147 a year ago to 170 pounds to-day.

Hood's Sarsaparilla Cures

I praise Hood's Sarsaparilla for it all." Wm. E. GREENHOLTS, 1812 Hanover St., Baltimore, Md.

Hood's Pills cure liver ills, constipation, biliousness, jaundice, sick headache, indigestion.

FOR SALE.

FOR SALE.

AFEW CHOICE LOTS AT EDGINGTON.

Cheap and on Easy Terms.

W. V. HOGE,

606 City Bank Building, 1200 Market Street.

FARM FOR SALE.

The sale of that valuable farm, known as the George Sewell farm, has been adjourned until SATURDAY, the 12th day of January, 1895, sale to begin at 10 o'clock a. m. at the front door of the Court House, of Ohio county, W. Va. The land may be divided and sold in two separate tracts, or as a whole, as the parties in interest may elect on the day of sale. Should it be sold in separate tracts it will be divided as follows: All of the land lying west of the Cherry Hill road, supposed to be about 75 acres in one tract, and the balance of the farm lying east of the said Cherry Hill road, supposed to be 184 acres in the other tract. TERMS OF SALE.—One-third cash, or as much more as the purchaser may elect to pay on day of sale, and the remainder in two equal annual payments, with interest. Lots to be retained on land to secure the deferred payments.

J. E. SAWYER, J. E. HOOTON.

J. C. HERVEY, Auctioneer.

For polishing Brass, Copper, Zinc, Steel, Tin, etc. An elegant and durable metal polish. Put up in 1, 5 and 10 lb. pails for engineers, ironmen, etc.; 5 oz. boxes for housekeepers. Ask your dealer for it. Sold on application.

NATIONAL POLISH CO.,

Wheeling, W. Va.

VENO,

The Great Healing Power!

His Wonderful Cures Attracting the Attention of the Physicians of Wheeling—He Cures Chief of Fire Department Healy, of Rheumatic Gout, of Several Years' Standing—Mr. Healy's Letter Below Tells of the Cure and Assures Veno of His Gratitude and Friendship—George F. Gray, of No. 63 Seventh Street, is Healed of an Affliction of the Eyes, Which Has Seriously Bothered Him for Years.

The second of Veno's lectures, to men only, was given at Old Folgers' Hall last night, and again the hall was crowded. As on the previous evening, many were turned away, unable to gain admittance.

He called attention to the remarkable cure, as evidenced in Chief Healy's case, and promised relief for all afflicted through any of the chronic diseases. At the close of the lecture many crowded forward to take the doctor's hand and blessed him in such a short time.

To-night Veno lectures to ladies only, at the same place, to which an admission fee of ten (10) cents will be charged.

Verily, if of the most remarkable of the many cures that Veno has effected since in Wheeling is evidenced by the following unsolicited testimonial from Chief Frank J. Healy, of the City Fire Department. Mr. Healy has been a sufferer for many years with rheumatic gout, and some time since suffered greatly at the fire which destroyed the Atlantic Tea Company's warehouse, when his feet were badly frost-bitten, causing him to lie in bed for some time. Chief Healy writes as follows:

WHEELING, W. Va., January 9, 1895.

"Dr. Veno:

"DEAR SIR:—It is with pleasure that I pen these few lines to let you know that I am O. K. and never felt better in my life. Doctor, I want to say to you that I have had some of the best doctors in this and other cities and I must say that none of them have ever relieved me as your treatment has. I have used but four bottles of your Electric Fluid and but one-half bottle of the Curative Syrup and I can say to you, and all inquiring rheumatics, that of all the remedies I ever tried I must say Veno's is the best.

"You remember when I first consulted you I said that I did not wish any advertisement made of my case, but I have changed my mind and you may refer anyone to me. I did not think then when I went to you that you would be able to fix me up. I was a terrible sufferer from rheumatic gout, and my feet were also badly frost-bitten; it was surely a tough case, and having cured me in such a short time, I will say without fear of contradiction that your remedies are the best I ever used.

"I will ever remain your friend,

"FRANK J. HEALY,"

"Chief Fire Department."

Veno's Curative Syrup (50c a bottle), made from the famous Lakeland Water, is the quickest cure in the world for Venereal, Syphilis, Liver, Kidney, Blood and Stomach Disorders, bad appetite, sleeplessness, a hot, watery, red, itchy, and sore throat, and when used with Veno's Electric Fluid (50c a bottle), will positively cure the worst and most desperate forms of Rheumatism, Sciatica, Neuralgia, Paralysis, Weak Muscles, Stiff Joints and all aches and pains.

Veno's Lung Tonic (50c a bottle), a positive cure for Throat and Lung Troubles, Bronchitis, Asthma, Coughs and Colds.

Veno's "Vito" (50c a bottle), a cure for Impotency, Weakness of Men, Lost Man
